

Procurement Management System

Authorization and Control

It is the policy of this District to conduct its purchasing program in a manner to ensure optimum use of District funds. The Board, or its designee, reserves the right to determine what is in the best interest of the District.

The Superintendent is authorized to direct expenditures and purchases within the limits of the detailed annual budget for the school year and pursuant to State purchasing and federal procurement requirements. Board approval for purchase of capital outlay items is required when the aggregate total of a requisition exceeds \$25,000, except the Superintendent shall have the authority to make capital outlay purchases without advance approval when it is necessary to protect the interests of the District or the health and safety of the staff or students. The Superintendent shall establish requisition and purchase order procedures as a means of controlling and maintaining proper accounting of the expenditure of funds that align with State purchasing and federal procurement requirements. Staff members shall not obligate the District without express authority. Staff members who obligate the District without proper authorization may be held personally responsible for payment of such obligations.

Bids and Contracts

For micro-purchases up to \$3,000, purchases may be awarded without soliciting competitive bids if the District considers the price to be reasonable. The District shall maintain evidence of this reasonableness in the records of all micro-purchases. If small purchases are between \$3,000 and \$50,000 in cost, the District shall use price or rate quotations obtained from an adequate number of qualified sources and maintain quotations in purchasing records.

With the exception of the purchase of curricular materials, and in accordance with the requirements of Idaho Code, whenever the cost of any construction, repair, or improvement; or the acquisition, purchase, or repair of any equipment; or other personal property necessary for the effective operation of the District exceeds \$50,000 but does not exceed \$100,000, bids shall be called for by issuing written request to at least three vendors as specified in statute as well as following federal procurement requirements. Specifications shall be prepared and be made available to all vendors interested in submitting a bid. The contract shall be awarded to the lowest responsible bidder, except that the Board may reject any bid, reject all bids, or publish notice to rebid the project. If, after calling for bids a second time, no satisfactory bid is received, the Board may proceed under its own direction, subject to the approval of the State Board of Education.

For expenditures exceeding \$100,000, bids shall be called for by issuing public notice as specified in statute as well as following federal procurement requirements. Specifications shall be published in the official newspaper of the District at least two weeks before the opening date, with the second notice to be published in the succeeding week at least seven days before the date that bids are scheduled to be opened. Copies of specifications, bid forms, bidder's instructions, contract documents and general and special instructions shall be made available upon request by any interested bidder.

When purchasing good and services pursuant to Idaho Code, and determining the most qualified bidder for award of the contract, the District, at its sole discretion, may consider not only the amount of the bids, but may also consider additional factors including, but not limited to, the relative experience, ability, references, and integrity of the bidders to do faithful and conscientious work and promptly fulfill the contract according to contract requirements.

Except where a Request for Proposals is advertised, in the event the District awards a contract to a bidder other than the lowest responsive bidder, the Board shall declare its reason or reasons on the record and shall communicate such reason or reasons in writing to all who have submitted a competing bid. The disappointed bidders shall have the right to submit a timely written objection, at which time the District shall stop all work on the project, and shall review its decision and determine whether to affirm its prior award, modify the award, or choose to re-bid, setting forth its reason or reasons therefor. After completion of the review process, the political subdivision may proceed as it deems to be in the public interest.

The Superintendent shall establish bidding and contract awarding procedures that align with State purchasing and federal procurement requirements.

Sealed Bids (Formal Advertising)

For purchases over \$150,000, bids are publicly solicited and a firm fixed price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all of the material terms and conditions of the invitation for bids, is the lowest in price. The sealed bid method is the preferred method for procuring construction, if the following conditions apply:

1. A complete, adequate, and realistic specification or purchase description is available;
2. Two or more responsible bidders are willing and able to compete effectively for the business; and
3. The procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price.

If sealed bids are used, the following requirements apply:

1. Bids must be solicited from an adequate number of known suppliers, providing them sufficient response time prior to the date set for opening the bids.
2. The invitation for bids, which will include any specifications and pertinent attachments, must define the items or services in order for the bidder to properly respond;
